

Chronic Kidney Disease

Preliminary QI Project
MDP and Mountain Pacific Quality
Health
Chronic Kidney Disease Initiative

CKD - QI

- Contact all MDP sites
- Disseminate Educational Materials
 - Folders
 - E-GFR calculators
 - Schedule CME for all clinic staff

CKD-QI

- Pull reports on lab testing
 1. Look for annual urine protein tests
 2. Encourage sites to order and track
 1. Creatinine
 2. Albumin/creatinine ratio
 3. e-GFR

CKD-QI

- DQCMS Updates
 - Distribute new version to sites
 - Instruct staff on changes

(To be ready for BETA testing in March)

CKD-QI

- Track Data from Quarterly Summaries
 - Prepare graphs showing trends and levels
 - Compare to standards of Care

CKD-QI

- Work with sites to develop QI projects that will best fit their practice and needs.
- Share information with other groups and organizations responsible for care of patients with diabetes.
 - Display booths
 - Educational presentations

CKD-QI

- IDEAS – INPUT – Your's is important.

- Help Reduce Complications of Diabetes and CKD in Montana.
